

1 * Patient's Full Name: Team Heather
2 * Date of Birth: November 26, 1928
3 * Sex: Female
4 * Address: 7 Churchill Square
5 * Home Telephone Number: +12345678910
6 * Mobile Phone Number: +12345678910
7 * Email Address: alerts@yourdomain.com
8 * Condition: Pancreatic Cancer, Unresectable, Metastatic
9 * Staging: Stage IV
10 * ECOG: 2
11 * Adequate Organ Function: Yes
12 * Measurable or Evaluable Disease per RECIST v1.1: Yes
13 * Prior Standard Chemotherapy Treatments:
14 * FOLFIRINOX
15 * Gemcitabine (Gemzar), Irinotecan, Leucoovorin
(Wellcovorin), Oxaliplatin (Eloxatin), Paclitaxel albumin-bound
(Abraxane)
16 * Disease Characteristics:
17 * Liver: Increased size of metastatic deposits.
18 * Gallbladder: Presence of a large gallstone
(cholelithiasis).
19 * Pancreas: Known adenocarcinoma with increased enveloping
of the celiac axis.
20 * Spleen: Heterogeneity and potential small subcentimeter
areas of hypodensity.
21 * Left Adrenal Gland: Stable local invasion and metastatic
spread.
22 * Omentum: Progressed omental nodularity related to
metastatic disease.
23 * Ascites: Recurring Ascites, drained 7.5L first procedure;
3.5 one week later.
24 * Lungs: Subtle ground-glass opacity in the left upper lobe
and lingula, minimal apical pleural thickening.
25 * Tumor Biomarker: KRAS G12D, MSS
26 * Prior Treatment with a KRAS G12D Inhibitor: No
27 * History of Hemoptysis or Hemorrhage: No
28 * History of Intestinal Disease, IBD, Major Gastric Surgery, or
Other GI Conditions: No
29 * Cardiac Abnormalities: No
30 * Thrombosis/Thrombotic Event: Pulmonary Embolism, currently
being treated with medication.
